Pet Festival 2023 Pavilions 5 & 6 3-5/02/2023

An exhibition of animal love, learning, joy and creation!

As part of the 12th International Exhibition Zootechnia 2023, the successful Pet Festival section continues to offer visitors, guardians and friends of all companion animals, the opportunity to be informed about various issues of living together with their little friends. The visitors will learn about their education, nutrition and health and they will meet professionals, who will recommend the most modern services and the best quality products.

Moreover, they will be informed about smart and educational accessories, toys, care and grooming services, dog and cat hotels, as well as about many other interests that can make the life of a small "household" friend, feathered or fluffy, more pleasant and easy.

Visitors will also be able to chat with experts about their specialized needs, gather valuable information, take part in original competitions and win lots of prizes.

In addition, in the two large auditoriums that will be created within the dedication, excellent speakers will be invited, and who will refer to all the new trends and developments in the world of companion animals and will answer key questions from those interested.

Poultry egg producer Animal Science Laboratory of the Department of Veterinary Medicine of the Aristotle University of Thessaloniki Sector B7 / Stand 4 2-5/02/2023

Animal Science Laboratory of the Department of Veterinary Medicine of the Aristotle University of Thessaloniki

Egg-producing poultry farming is one of the most dynamic branches of domestic livestock farming with continuous development both in the field of livestock equipment and applied nutrition.

The Animal Husbandry Laboratory and the Nutrition Laboratory of the Department of Veterinary Medicine of the School of Health Sciences of the Aristotle University of Thessaloniki, with the support of HELEXPO, will highlight the Greek egg through their long-term research experience in the development of innovative egg products and the adoption of good breeding practices.

In collaboration with the company GEOTHERMIKI S.A., a pioneer in the Greek market in the construction of metal structures, a new integrated proposal for a chicken coop will be presented, with a capacity of 300 chickens, which, based on the logic of LEGO constructions, can be expanded to an unlimited size. This construction will incorporate all the modern breeding technology in combination with minimal operating costs.

Horse Show in Pavilion 17 Pavilion 17 2-5/02/2023

Zootechnia 2023 is hosting for the 8th consecutive year the established "HORSE SHOW", which is a great meeting of horse lovers and industry professionals from Greece and the wider Balkan region. Organizations and private individuals participate with more than 50 horses from all over Greece; will present skill shows, chariot races, and various other events, on a 20×50 m shaped track.

At the same time, Equestrian Clubs from various regions of the country will participate in landscaped areas around the track.

HELLENIC CONGRESS 2023 – MEAT AND PRODUCTS THEREOF Convention Center "Ioannis Vellidis", Hall. «OLYMPIAS » 3-5/02/2023

The Meat News magazine in collaboration with TIF HELEXPO organizes the 7th National three-day Hellenic Congress on Meat and Products thereof, to promote contemporary means "from stable to table" in order to achieve an integrated approach to quality, hygiene and safety meat and its products, health and welfare, environmental protection and sustainable development.

The Congress will be held on February 3, 4 and 5, 2023 and will be held at the "loannis Vellidis" Congress Centre - Olympia Hall, as part of Zootechnia Fair.

The Congress's topics include the whole food chain, from the production of animal feed, housing systems, equipment, genetic improvement, conventional / organic animal breeding, health management, breeding standards, animal welfare, transportation, slaughtering facilities, meat production and products, ABP, maintenance, packaging, labeling, traceability, organic / traditional products, distribution, foodservice, selling, eating habits, training, hygiene and safety standards, regulatory requirements, to the preparation of this commodity to the consumer's plate.

The congress is under the auspices of Ministry of Rural Development and Food, Hellenic Veterinary Medical Society, Hellenic Veterinary Association.
